Robert A. Wilson : Modern Book Collecting before purchasing it in order to gage whether or not it would be worth my time, and all praised Modern Book Collecting:

0 of 0 people found the following review helpful. HelpfulBy Christine S.Great basic ideas helpful5 of 6 people found the following review helpful. very basic, pre-InternetBy Jerry LaicheThis was a great book in the 80's. It still is useful in defining terms and older methods. Having lived and worked as a book dealer and collector during the digital revolution, I can say with some authority that "Modern" book collecting is definitely and significantly different than 30 years ago.0 of 0 people found the following review helpful. Five StarsBy Cyrus H.real good

From what to collect and who to buy from to how to care for a collection.

.com This guide describes everything you need to know about collecting recently published literature. Robert Wilson indicates how to identify known and emerging authors worth collecting; how to find those first editions, with a list of the various labeling styles of well-known commercial and small presses; how to spot a fake; and how to sell your collection to an institution. The appendices alone are a valuable resource for collectors, with lists covering such information as book auction firms, clubs for book collectors, and Wilson's picks for the 50 most important American books since World War II. From Publishers Weekly Wilson's guide combines discussions of the basics of book collecting with helpful appendices. Copyright 1992 Reed Business Information, Inc. From the Back Cover When appreciation for the written word evolves into passion, the next logical step is to collect first and rare editions. Modern Book Collecting is recognized as the definitive introduction to book collecting, with key information for both novice and veteran collectors about starting and maintaining a book collection. Focusing on books that are now most often collected - the works of late-nineteenth and twentieth century writers - Robert Wilson details what is collectible and how to make choices, how to build an author collection, how to care for books, assessing physical condition, and much more. A comprehensive list of twentieth-century author bibliographies is especially valuable, and appendices listing up-to-date sources of rare book dealers, and Wilson's choices for the fifty most important American books published in the post-war period, round out Modern Book Collecting as a thoroughly enlightened guide.
