Grégoire Rossier, Anthony Marquié : Moonwatch Only: The Ultimate Omega Speedmaster Guide before purchasing it in order to gage whether or not it would be worth my time, and all praised Moonwatch Only: The Ultimate Omega Speedmaster Guide:

0 of 0 people found the following review helpful. I was skeptical based on price but it arrived in perfect new condition and I'm thrilledBy DannyIt's legit. I was skeptical based on price but it arrived in perfect new condition and I'm thrilled! I work for the brand and it's nice to have a reference at home to turn to.1 of 1 people found the following review helpful. Five StarsBy Mark Aistonthe speedy bible1 of 1 people found the following review helpful. Four StarsBy Steve SheretAs described. Thanks!

"It makes perfect sense to publish a book called Moonwatch Only. The OMEGA Speedmaster Professional - the Moonwatch - has done things that no other timepiece has done and it's been worn in places where only a few human

beings have been." Captain Eugene Cernan, the last man on the MoonInitially designed for automobile racing teams and engineers, the Omega Speedmaster embarked on a very different trajectory when NASA chose it to accompany astronauts heading for the moon in 1965. Its involvement in the space adventure has propelled the Moonwatch to the top of the list of celebrated timepieces. After years of research and observation, the authors present a complete panorama of the Moonwatch in a systematic work that is both technical and attractive, making it the essential reference book for this legendary watch. "It is an indescribable reference work and a true must-have for every Speedmaster collector" Forbes "This book sets a new standard. Not only for books on the Omega Speedmaster, but for watch books in general. I've never seen anything like it, and believe me I could fill an impressive sized wall with books on watches. Authors of other books or publishers should take a look at Moonwatch Only as well to see how it should be done." Fratello Watches

About the AuthorAnthony Marquié is a French national and a trained aeronautical engineer. He swiftly turned to an international career in finance and investments. He has always been a collector of both modern and vintage watches, including many icons from the Omega production. Today he spends a lot of his time looking for rare examples, as well as studying the market for prestigious watches and collector's pieces. Grégoire Rossier is a Swiss biologist specialising in bioinformatics. He became a watch enthusiast at the age of 13 when he inherited his first Omega Seamaster, but it was only much later that he started serious research on the Moonwatch. Applying his experience as a researcher, he developed a systematic database of thousands of entries referencing all his observations as well as the market trends for several versions of the Speedmaster.
