Jan Lindenberg : More Strawberry Shortcake(tm): An Unauthorized Handbook and Price Guide (Schiffer Book for Collectors) before purchasing it in order to gage whether or not it would be worth my time, and all praised More Strawberry Shortcake(tm): An Unauthorized Handbook and Price Guide (Schiffer Book for Collectors):

0 of 0 people found the following review helpful. There is a great alternative to this bookBy Connie Rhae StoverThis

book may be an improvement over the first, but it still lacks the necessary details for someone who is serious about collecting. For a thoroughly comprehensive collector's guide, try the book *Strawberry Shortcake Piece by Piece*. 1 of 1 people found the following review helpful. Mild improvement from version 1-By A. T. GoddardWell, with slight improvements, the guide has more of the doll collections and miniatures although not all inclusive- the dolls shown are in much better condition- most of which was new in box or still on package (MOC). There is a lot of wasted area. For example, she has some pages with just 2 or 3 pictures of toys; inventory is still disorganized but an improvement from the original SSC Collector book. The price guide is off based from ebay and online prices but a little closer to toy collector shows and expos. A lot of the pictures seem to be repeats from the first book as well. On the positive side, I still enjoyed looking at the amazing toys that I once owned and collected as a child. 0 of 0 people found the following review helpful. *Strawberry Shortcake reference guide* By Eva GannGreat Book on how many dolls in each category. Found only one mistake it listed - showed two pictures of Angel Cake Party Pleaser leaving out Mint Tulip.

Strawberryland is so "berry " sweet, who could possibly resist going back for another visit? Jan Lindenberger and Jennifer Bowles have returned from the place where strawberries grow all year round to bring us another volume of *Strawberry Shortcake collectibles*. Originally introduced as a greeting card design by American Greetings, Corp., this sweet-smelling little girl and her many-flavored friends became the playmates of children everywhere through the 1980s. These children have grown up, but they never forgot Strawberryland-now Strawberry and her friends are in high demand on the collectors' market. This volume covers not only the dolls themselves, but the many many miniatures, toy sets, foods, premiums, and even a chapter for "fabulous fakes"!

About the AuthorJan Lindenberger is the author of several books on antiques and collectibles and a dealer who lives in Colorado.
