Real 1950's Kitsch By George Brady Great book about fascinating decorative and kitschy lamps that only the 1950's could have produced. The narrative is enjoyable and informative and the book is jammed with beautiful photos, a must have for mid-century collectors. Thanks to Thelma and Gerry Moss, their poodle Terry and kudos to the authors

It's the only book out that I know of on the lamps and lighting by the Moss Company. Hundreds of photos, even gives a nice history of the company and picture of the lady that started the lamp company. Fantastic book. I recommend this book for anyone that collects or sells Moss Lamps. Thank you.

Once seen, never forgotten: that's a Moss lamp! Plexiglas bodies, spun glass shades, and spinning figurines were radiantly combined to transform humdrum 1950s home decor into something extraordinary. Today, these marvels of modern design continue to spark the interest of collectors. This book offers the first-ever, in-depth look at the Moss company and its shining array of lighting products. It traces the Moss success story through exclusive interviews with family members and employees, 750 current and vintage product photos, and never-before-seen materials from the Moss archives. Also included are a product index, price guide, and detailed information on the many collectible figurines that graced Moss lamps, from such noted design houses as Ceramic Arts Studio, deLee Art, Hedi Schoop, and Lefton. An illuminating and lighthearted look at the lamps, it's ideal for anyone attracted to the fresh, fun side of brilliant '50s design!
