When shown a naked body, eh, who cares? But when combined in context with symbols and cultural references, we connect with the scene, with the play, with the human beings who are depicted in the images. When you have the largest postcard company in the world, you're able to choose from among the very best images for a collection like this. It's a sweet book, an inspiring creative virtual museum of beach and ocean fun. It's the perfect book for beach shops, a great gift for artists, clothing designers, historians, and young women who may be saturated with the misogynistic images of modern media.

Most are modest, some dare smoke and strike suggestive poses. Others go so far as to expose an inch of flesh as they coyly wring seawater from their swim dresses. Enjoy over 100 hand-tinted postcards taken during an era when women may have been clothed from head to toe, but they were women nonetheless. Dressed in the latest beach fashions, bold Victorians flirt with the camera, creating charming and beguiling images..
