The best intro to Stephen King for beginners (and a fantastic collection too)!By Zachary LittrellI like Stephen King, so I knew coming in I'd enjoy this, but boy did I not expect how much I'd love this. King has an eye for human drama, and weaving in supernatural elements to heighten the tension. Some of the stories are better than others, but all are well-crafted and worthy of reading, especially at night before bed for optimal atmosphere.My personal favorites:Jerusalem's Lot -- an unabashedly Lovecraftian story, but exceptionally well-written.The Mangler -- the images in this story...ahhhh, I just can't get over how these details keeps this story horrific and not campy.Children of the Corn -- In short, the movie version marred a wonderfully creepy story.The Last Rung on the Ladder -- I think this is the real dark horse of the collection. It is surprising how fiercely it touches the reader, and how heartbreaking the conclusion is.I reiterate -- read these at night. King is best when the sun is down and you're all alone.0 of 0 people found the following review helpful. Better than I expectedBy Mz Cat In the HatI am very pleased with the condition of this book. It is better than I was expecting.0 of 0 people found the following review helpful. A+By TaraBought as a gift and it was a hit!
