James Beckett : Official Price Guide to Basketball Cards 2000: 9th Edition (Beckett Official Price Guide to Basketball Cards)

before purchasing it in order to gauge whether or not it would be worth my time, and all praised Official Price Guide to Basketball Cards 2000: 9th Edition (Beckett Official Price Guide to Basketball Cards):

0 of 0 people found the following review helpful. A Superior Basketball Card Reference By Anne Sullivan Beckett Publications has issued the most recent version of their ever-popular basketball card price guide. Although it is not as comprehensive as Krause's Standard Catalog of Basketball Cards, it is nonetheless a superior reference work. This inexpensive paperback provides the collector with a handy price guide for the major mainstream sets, in a convenient mass market format. It is often found for sale not only in regular bookstores, but on racks at newsstands and retail outlets. The pictures inside are small but give the collector a good idea of what the cards look like, both front and back. Veteran collectors might consider the prices a bit high, but such is the case with most card guides. It is not very difficult to find a street level or card show dealer who hawks their wares at "20 to 50% off Beckett." A couple of things you won't find, however, in this otherwise helpful shorthand guide are a detailed history of the hobby or listings for the many attractive minor issue sets sought by advanced collectors. For that, you will have to seek out other books by experts in the basketball card hobby. --Mike Bonner, author of COLLECTING BASKETBALL CARDS, A Complete Guide With Prices.
