SealsIf you desire art that celebrates color, Ken Done's Paintings, Drawings, Posters and Prints has it - 125 pages worth, featuring Done's work from the late 1970s to the mid-1980s. While Done gets flack from the fine art world for his work being too "decorative," I appreciate his passion depicting seascapes, florals, still life and figures. And I admire him because, like some other artists whose art stirred controversy (Keith Haring comes to mind), Done has sought to make his art accessible to a wider audience.Elizabeth Butel gives a brief introduction about Done -- his education, his previous career in advertising, his major ideas about art, and his start at age 40 as a professional artist with a solo exhibition. Done also provides occasional commentary about his thinking or approach to a painting, which I found revealing. In studying Done's work you see his influences - Van Gogh, Gauguin, Matisse, Dufy, Aboriginal. But he integrates them into a vision that becomes his own.If you enjoy Ken Done's art, and don't yet have a poster or print, this book is worth getting (it seems I remember people saying the first edition of this book is the one to get -- it has the best color plates).4 of 4 people found the following review helpful. Color GaloreBy C. LovejoyI enjoy Ken's style - have visited his studio/store in Sydney...his childlike/primitive colors and shapes are entrancing...these books are wonderful reminders of my trip...0 of 0 people found the following review helpful.
