Ian V. Hogg, John S. Weeks : Pistols of the World before purchasing it in order to gage whether or not it would be worth my time, and all praised Pistols of the World:

This is a revised edition of this directory of current military and sports pistols, now in a new format. There is a new page design and many new illustrations. It contains illustrations of nearly every model described and should be of interest to military and security forces, defence procurement agencies, manufacturers, collectors and sportsmen. The author, Ian Hogg, is regularly consulted by manufacturers and armed forces and is considered to be the world's leading writer on small arms and infantry weapons.
