Well organized and easy to follow if you're researching authentic looks from various periods. Also nice to have an affordable option to Racinet art. Would be nicer if it were in a slightly larger page size.0 of 0 people found the following review helpful. Poor layout, and without an index it is virtually ...By CustomerA very broad and general look at clothing worn on every continent since the dawning of time. Hundreds of pictures, but unfortunately, the majority of them are too tiny to be of much use. Poor layout, and without an index it is virtually impossible to find what you're looking for IF it's even contained within the pages of this book in the first place. If you're looking for specific, detailed information on fashion from a particular time/country this is not the book for you.0 of 0 people found
