good as it gets from Katrina GilderBy Laura MayoAs good as it gets from Katrina Gilder . Lots of fast paced action, great characters and a plot that is straight off the world's news. Short, fast paced chapters with action! Nikki with a heart! Prepare us for the next exciting book with hopefully more Plots!0 of 0 people found the following review helpful. Well DoneBy SheliaThe subject matter was not what I expected, I was thinking Hotel Room instead of court room but, it kept my attention. I would say this was a really good read.

Family over Everything is not what Nikki expected it to be after the loss of her parents at such a young age. Nikki didn't miss a beat stepping up to the plate to care for her younger brother Marco, who was on the path to destruction at such a young age. When push comes to shove Nikki will swallow all her fears for her younger brother putting family over everything. One false move she makes to cover for him will cause a scandal so malicious that hearts, careers and freedom will be put into jeopardy ruining the lives of so many others.
