Not having knowledge myself on the subject, I took great pains to research this type of book. My son-in-law was very impressed with his gift, was pleased that it was very thorough and that it contained many photos. The condition of the book was "like new" just as the seller stated, and even though it was not guaranteed to be delivered before Christmas, I was very pleased to have received it three days before the holiday. My purchase was well worth the price I paid for it.0 of 0 people found the following review helpful. Too bad the prices are no where near what the current ...By G. JungeToo bad the prices are no where near what the current market is as the prices have gone down up to 70-80% but nice pictures.0 of 0 people found the

following review helpful. Wonderful BookBy OrthodoxyWonderful book with lots of pictures which are great. Loads of information, too. details when each pattern was made and who created it. Great resource.

Roseville pottery has become a popular antique ware to collect, and with this guide the patterns can be identified, variations seen, and values estimated. The alphabetical organization is easy to use.
