Rick Erickson : Royal Delft: A Guide to de Porceleyne Fels (Schiffer Book for Collectors) before purchasing it in order to gage whether or not it would be worth my time, and all praised Royal Delft: A Guide to de Porceleyne Fels (Schiffer Book for Collectors):

1 of 1 people found the following review helpful. Great history of Delft but not so much for pricing! By M. H. This book seems to only talk about Delft that the author has been able to find or researched. I have a full set for 10 service ware from 1941 that I could not find in the very expensive book. 8 of 8 people found the following review helpful. Blue Plate Heaven By Agatha Anna Bardoel This book, "Royal Delft, A Guide to De Porceleyne Fles", is beautifully designed and printed. The porceleyne factory in Delft, The Netherlands, to which it refers, was 350 years old in 2003. If you love Delft plates, known by the little pot insignia on the back, and most Dutch people do, then this is a great book to have, although at \$69.95, it is not cheap. However it will save you money, as it tells you how rare the plates

that are offered on sites such as EBay actually are, how many were originally made, their original selling price, and their value in recent years. When I was growing up in a Dutch emigrant household in Canada, we had a little WW1 plate hanging on our wall at home. This book was able to tell me the history of the WW1 plates Delft offered, with pictures of the entire series, and the original price and current value. It also listed the designer of the war plates, as well as the painters who worked on them and their identifier initials. I am now well on my way to collecting the series. This is a specialty book which I personally will long treasure and pass on to my own daughter. 8 of 8 people found the following review helpful. Royal Delft: A Guide to De Porceleyne Fles By Cynthia J. Vetrano I found this book to be extremely helpful in more fully understanding the history and evolution of the De Porceleyne Fles Delft. Great detailed pictures, year codes, painters, and designer information. A beautiful book also!

Ceramic Delftware has never been more popular or collectible. This important new book documents the world's most famous and oldest surviving Dutch Delftware factory, De Porceleyne Fles (Royal Delft), which dates back to 1653. Publication of this volume coincides with the 350th Jubilee celebrations of the factory in 2003. Beautiful plates, vases, covered pots, candlesticks, clocks, tableware, tiles, and watering cans are all here, from inexpensive pieces to breathtaking artwork worth tens of thousands. More than 650 color photographs show the distinctive quality and over 100 archival black and white photos are largely drawn from factory sales catalogs. Rick Erickson provides a wealth of detail to attract and teach the novice enthusiast while also inspiring the knowledgeable veteran collector. This important reference includes guides to original and current prices, rarity, factory marks, year codes, and painter's signatures.

About the Author Rick Erickson has a professional background in organ and choral music and a deep interest in history and Dutch ceramics. In 2000, he mounted a notable exhibition in London, "Royal Kingston, Royal Delft," and is widely considered an authority on Porceleyne Fels.
