A wonderful gift for some lucky lady.By Marcia M.This is an awesome book and I would highly recommend it as a gift for some very lucky lady on some special occasion. Can't put it down, and there's a lot of content there. Wonderful photos of gun engraving and historical photos.0 of 0 people found the following review helpful. Silk and Steel Women at ArmsBy CustomerThis book is really great. The detail and quality is perfect and the content is great to read. Great purchase.0 of 0 people found the following review helpful. Guns and women from the beginning to present dayBy Edward F. ArnoldA coffee-table book with tons of information on women and guns through the ages, with superb illustrations of high decorated firearms owned by royalty, or including females as part of the design.

Silk and Steel: Women at Arms is the first comprehensive presentation on the subject of women and firearms. No object has had a greater impact on world history over the past 650 years than the firearm, and a surprising number of women have been keen on the subject: as shooters, hunters, collectors, engravers, and even gunmakers. From Queen Elizabeth I through her descendant Queen Elizabeth II, the numbers of aristocratic female arms enthusiasts, particularly shooters, have been impressive. Among those regal personages: Russia's Empresses Elizabeth and Catherine the Great, France's Marie Antoinette, and Great Britain's Duchess of Devonshire. In the New World, Thomas Jefferson's matched pair of Queen Anne-style flintlock pistols were made by London gunmaker Mary Dealtry. Pioneer American women took bold steps to defend home and hearth, and their courage earned them the right to vote in Western states, where hardiness and self-reliance were taken for granted. As Jefferson himself admonished: "[The gun gives] boldness, enterprise, and independence to the mind." Many women were comfortable with firearms in early America, and among the world's most famous women in the late nineteenth and early twentieth centuries was Annie Oakley—"Little Sure Shot." Turning back the clock to the time of Joan of Arc, R. L. Wilson shows how women

have played a vital role in armed conflicts. For many centuries, women went to war—sometimes in the guise of men—without their comrades knowing that they were present. Increasingly, in our own era, there are female fighter pilots and cadets at West Point and at all the U.S. service academies. The 2001–2002 war in Afghanistan saw Northern Alliance women trained to fire AK-47s, some even shooting their Taliban tormentors. Expanding on a long tradition, in the post–World War II period, millions of women and girls gravitated to sport shooting, including trap, skeet, and sporting clays, rifle and pistol target competitions, and the harvesting of game birds and even the dangerous big game of Africa. As evidenced in the writings of Ernest Hemingway, Robert Ruark, and Isak Dinesen, big game hunting in Africa was a favorite pursuit of many society women from Europe and the United States. Following the publication of this book, the Rosenbruch Wildlife Heritage Museum will mount a traveling exhibition exploring the theme of women and firearms. Firearms, clothing, and accessories will be accompanied by paintings, photographs, drawings, and prints, as well as numerous other artifacts, to depict and document a captivating subject never before examined in such depth. *Silk and Steel* joins the author's series on the history of firearms, which commenced in 1979 with *The Colt Heritage* and continued through such later titles as *Colt: An American Legend*, *Winchester: An American Legend*, *The Peacemakers*, *Steel Canvas*, *Ruger His Guns*, *Buffalo Bill's Wild West* (with Greg Martin), and *The World of Beretta*. *Silk and Steel* includes more than three hundred color plates, with spectacular new collages by Peter Beard. The bibliography lists myriad works of reference, some centuries old, and is accompanied by a detailed index.

From the Inside Flap *Silk and Steel: Women at Arms* is the first comprehensive presentation on the subject of women and firearms. No object has had a greater impact on world history over the past 650 years than the firearm, and a surprising number of women have been keen on the subject: as shooters, hunters, collectors, engravers, and even gunmakers. About the Author R. L. Wilson has authored more than forty books and more than three hundred articles in a career that has spanned four decades. His dedication to the world of arms and armor began with a boyhood in Minnesota, followed by internships at the Corcoran Gallery of Art, the Armouries, H.M. Tower of London, and the Wadsworth Atheneum, where he was appointed curator of firearms at the age of twenty-three. He resides in San Francisco, but consultancies with private collectors and institutions, including the Autry Museum of Western Heritage, Cody Firearms Museum, the Royal Armouries Museum (Leeds), Tiffany Co., the National Firearms Museum, and the Metropolitan Museum of Art, keep him traveling continually. —About the Photographers—Retrospectives of Peter Beard's photography and art have been held in Milan, Paris, Berlin, New York, and Los Angeles. His work has appeared in *Vogue*, *Life*, *Esquire*, *Vanity Fair*, and numerous other journals. He is the author of *The End of the Game*, *Eyelids of Morning*, *Longing for Darkness*, *Portraits*, and *Zara's Tales from Africa*. This is his sixth book with R. L. Wilson. G. Allan Brown is a frequent contributor to publications on firearms and antiques. His work was showcased in *Colt: An American Legend*, *Winchester: An American Legend*, *The Peacemakers*, *Steel Canvas*, *Ruger His Guns*, *The World of Beretta*, and both

volumes of The Colt Engraving Book.
