Michael E. Haskew : Small Arms 1914-1945 (The Essential Weapons Identification Guide) before purchasing it in order to gage whether or not it would be worth my time, and all praised Small Arms 1914-1945 (The Essential Weapons Identification Guide):

0 of 0 people found the following review helpful. Disappointing compared to books on the same topic. By Lord Haw Haw Disappointed somewhat, as I was expecting more historical detail. That's one of the problems I run into when purchasing books on firearms. There is plenty of tech specs, but not enough historical context. The color illustrations and b/w photos in actions are nice, but I was hoping for a more comprehensive overview. 0 of 0 people found the following review helpful. Five Stars By Dustin L. Moffet excellent source of military small arms and history of world wars 1 11.0 of 0 people found the following review helpful. Five Stars By Rod Schwarm great book

Illustrated with outstanding color profile artworks, The Essential Identification Guide: Small Arms 1914-45 is the

definitive study of the small arms equipment of warring nations across both world wars. Organized by conflict and within each war by front, the book describes in depth the various models in service with each force. All the key small arms are featured, such as handguns, machine guns and submachine guns, bolt-action and automatic rifles, and grenade launchers, and all the key models are included, such as the Colt .45 handgun, the Thompson M1928 submachine gun, the Type 92 machine gun, the SMLE rifle, the Bren gun, the MP40 machine pistol, and the M1 Garand rifle. Illustrated with more than 200 color profile artworks and with accompanying specifications and background text, *The Essential Identification Guide: Small Arms 1914–45* is an excellent reference guide for modelers and any enthusiast with an interest in the military technology of the twentieth century. **REVIEWS** excellent book which places the development of small arms technology in the context of the battles in which they were used. *History of War*
