At a penny a copy a must buy for anyone interested in oriental carpets.2 of 2 people found the following review helpful. Five StarsBy Judith E. PrueittWonderful4 of 10 people found the following review helpful. As much about life as about rugsBy Benjamin FeldmanDenny has a great deal of insight into rugs, but almost everything he talks about translates to other fields. I put the book down, smarter about what's on my floor and smarter about navigating the material world.

Written under Sotheby's supervision by a well-known expert and illustrated throughout, here is the definitive guide to locating and selecting the oriental carpet that's right for you. The book covers the entire range of interest to collectors, and it also offers advice on maintaining one's purchase. 82 2-color illustrations; 16-page 4-color photo insert.
